

AI POLICE ASSISTANT

Enhancing Citizen Engagement

Enhanced with cutting-edge AI technology, **VideoBot®** by *CoRover.ai* introduces a groundbreaking solution for Police, providing citizens with seamless virtual interaction anytime, anywhere.

Key Features

Auto-answering FAQs

Instantly addresses common inquiries, streamlining information dissemination.

Violation Reporting

Enables citizens to report violations efficiently, contributing to enhanced public safety.

FIR Status Check

Facilitates real-time updates on FIR statuses, ensuring transparency and accountability.

Radiating WantedList

Disseminates information on wanted individuals, aiding in law enforcement efforts.

And much more

A plethora of additional functionalities cater to diverse citizen needs.

This metaverse-enabled, multi-channel, multi-lingual, and multi-format Virtual Assistant leverages state-of-the-art technologies including BharatGPT, BHASHINI, and Google Cloud, ensuring unparalleled performance and accessibility.
